

- ☐ Attach a reset style sheet
- ☐ Use the universal selector ***** to change the box model to **border-box**

Images

- ☐ Add a **class** to the images of the bread, muffin, and cat
- ☐ **Float** the images to the right and give them a margin on the bottom and left side

<header>

- ☐ Make its **height** 175 pixels
- ☐ Give it **fixed** positioning
- ☐ Stick it to the top of the page by setting its **top:** to 0px
- ☐ Make it span the entire width by setting its **left:** and **right:** to 0px
- ☐ Give it a **z-index** of 5

<nav>

- ☐ Turn the **<nav>** into a nav bar by applying the recipe in your handout packet on the page titled "Horizontal Navigation Bar"
- ☐ Change its positioning to absolute
- ☐ Move it to the bottom of the header by setting its **bottom:** to 0px
- ☐ Make it span the entire width by setting its **left:**, and **right:** to 0px

<main>

- ☐ Give it a 2em **margin** on the left and right sides
- ☐ Give it a top **margin** that is slightly bigger than the height of the **<header>** so it doesn't get covered up
- ☐ Change its **position** to **relative** so the award image's origin points are from the **<main>** and not the entire browser window.

Award Image

- ☐ In your HTML, add the image **award.png** at the top of the **<main>** element
- ☐ Give it a **class** so you can write style rules for it
- ☐ Make it **absolute** positioned
- ☐ Have it overlap and spill out of the **<main>** area by setting a **top:** and **right:** value that are **negative numbers** (ex: -20px)

Headings

- ☐ Increase the size of **<h2>**
- ☐ Increase the size of **<h3>** but have it be a little smaller than the **<h2>**
- ☐ Have the **<h3>** elements **clear** floated objects in both directions

aside.hours

- ☐ Add a **margin** to all four sides
- ☐ Give it a **border**
- ☐ Round its corners with **border-radius**
- ☐ Change its background to a **linear-gradient**

span.day

- ☐ Use **text-transform** to make all of the letters uppercase
- ☐ Make it bold with **font-weight**
